

NOTRE DAME  
OF MARYLAND  
UNIVERSITY

## Earn your Environmental Educator Certification in 5 days

July 6-10, 8:30 a.m.–4:00 p.m. | Location: Notre Dame of Maryland University

Join us for a week-long workshop focused on interdisciplinary, hands-on learning. Each day focuses on engaging projects using guides from and presentations by the Department of Natural Resources, National Oceanic, Atmospheric Administration (NOAA) and NASA. Participants will gain an in depth understanding of biodiversity studies and Meaningful Watershed Education Experiences (MWEEs) that they can apply to their education sites.

### WHY BECOME CERTIFIED?

- › Most professions have a certification program
- › There is no environmental education degree program in Maryland
- › Environmental education is interdisciplinary. Educators need solid training in science, social studies, economics, education, etc.
- › High quality EE supports education reform goals and can positively impact school performance as seen by State Environment and Education Roundtable's (SEER) "Environment as an Integrating Context" research and other studies.
- › Helps to support Green School status and initiatives

### COST

\$1,450.00 for 3 graduate credits, optional Maryland Environmental Educator Certification available for additional \$125.00

\$610.00 (no registration fee) for 1 graduate credit plus Maryland Environmental Educator Certification

*Space is limited!*

### CONTACT

Dr. Juliann Dupuis, [jdupuis@ndm.edu](mailto:jdupuis@ndm.edu) for registration information

Certification through the Maryland Association for Environmental and Outdoor Education (MAEOE) in Partnership with Notre Dame of Maryland University
