The Maryland Association for Environmental and Outdoor Education (MAEOE) encourages, engages and empowers the community to understand, responsibly use and promote the natural world. Founded in 1999, the Maryland Green Schools Program (MDGS) is a sustainable schools program. The Program’s goals are to enrich education by integrating hands-on, inquiry-based instruction, to empower youth to practically apply knowledge at school, home and in their communities that reduce ecological impact and encourage sustainable practices.

The Maryland Association for Environmental and Outdoor Education (MAEOE) encourages, engages and empowers the community to understand, responsibly use and promote the natural world. Founded in 1999, the Maryland Green Schools Program (MDGS) is a sustainable schools program. The Program's goals are to enrich education by integrating hands-on, inquiry-based instruction, to empower youth to practically apply knowledge at school, home and in their communities that reduce ecological impact and encourage sustainable practices.
